PAPERLIGHT

Make room for your paperwork.

An offline PDF workspace for Windows

---

01 Read and find

Use the sidebar to move between pages. Ctrl+F searches text.
For scans, choose Recognize text to run English and Chinese OCR.

02 Leave your mark

Draw a signature with your mouse, place a signature image,
or drag a text box wherever you need one.

03 Put pages in order

Drag thumbnails to rearrange pages. The Pages menu includes
rotation, deletion, extraction and merging.

04 Save a separate copy

Your original stays unchanged. Apply marked redactions before
saving a copy that permanently removes the selected content.

Try filling this field: Your name

A scanned document

Search for: OCEAN 4826
